

**RATE SCHEDULE R-EV
RESIDENTIAL SERVICE
ELECTRIC VEHICLE TIME-OF-USE ENERGY CHARGES**

AVAILABILITY

This rate schedule is available to Standard Offer electric service required for residential purposes in individual private dwellings and in individually metered apartments.

This rate is available to residential customers subject to ready access to an AMI network, the installation of required metering equipment and implementation of meter changes, and the completion of necessary enhancements to the Company's billing system. Customers will be transitioned from Revision 1 of R-EV to this version (Revision 2) of R-EV upon completion of the necessary enhancements to the Company's billing system. After the completion of those enhancements, this version (Revision 2) of R-EV will be the prevailing rate and will replace Revision 1 in its entirety as approved by the Arizona Corporation Commission in Decision No. 79293.

This rate schedule is only applicable to customers who own a qualified electric vehicle as determined by the Company. Service under this schedule is also subject to an annual certification for proof of EV ownership. Neighborhood Electric Vehicles as described in A.R.S. §28-101(53) do not qualify for this rate schedule.

DESCRIPTION

This rate has two parts: a basic service charge and an energy charge for the total energy (kWh) used for the entire month. The energy charge will vary by season (summer or winter) and by the time of day that the energy is used (On-Peak, Off-Peak, Overnight, or Super Off-Peak). This rate does not include a demand charge.

SERVICE DETAILS

1. This rate schedule requires the Customer to have a standard AMI meter in place.
2. Customers that self-provide some of their electrical requirements from on-site generation will be billed according to one of the Partial Requirements Service rate riders.
3. APS provides electric service under the Company’s Service Schedules. These schedules provide details about how the Company serves its Customers, and they have provisions and charges that may affect the Customer’s bill (for example, service connection charges).
4. Electric service provided will be single-phase, 60 Hertz at the Company’s standard voltages available at the Customer site. Three-phase service is required for motors of an individual rated capacity of 7½ HP or more.
5. Electric service is supplied at a single point of delivery and measured through a single meter.
6. This schedule is not applicable to breakdown, standby, supplemental or resale service.
7. Direct Access Customers are not eligible for this rate schedule.
